Required Equipment: See 2017-04-29 Hike activity notice

Recommended Equipment: See 2017-04-29 Hike activity notice

Cautions and Special Preparations: See 2017-04-29 Hike activity notice

Description: This activity is in conjunction with Bill Garling's Rim to River Grand Canyon hike. See his 2017-04-29 Hike activity notice for details of the hike.

Please notify me of your intent to participate in this study at least a week before the activity so that I can acquire an adequate number of clickers form the Park Service.

The park service continues to collect data on corridor trail usage below the Tonto plateau and appreciates volunteers that are willing to carry counters (clickers) and provide them with the number of hikers/runners that are encountered during their hike.

This activity will be similar, if not identical, to what some of us did last year on the Grand Canyon day hikes. The park service will provide us with the clickers and data cards to record the data that we collect. I will distribute the clickers and cards at the beginning of the hike along with any information on how to collect and record the data.
